

Lite-On Technology Corp. reports April sales of NT\$ 9.98 billion

2011/05/09

Lite-On Technology Corp. (TW 2301) today reported April consolidated revenue of NT\$9.98 billion, down a slight 6% M-o-M, bringing sales back to normal status after strong pulls from customers to cover for supply-chain disruptions from Japan's earthquake in March. Cumulative sales from January through April reached NT\$38.4 billion, maintaining approximately the same level as the same period last year.

Thanks to steady end demand coupled with smooth deliveries, Optoelectronics SBG posted growth of 21% Y-o-Y, driven by ongoing market share gains in the LED and Cameral Module businesses.
