

**Lite-On Technology Corp. reports August sales of NT\$ 10.63 billion,
up 3% both M-o-M and Y-o-Y**

2011/09/08

Lite-On Technology Corp. (TW 2301) today reported August consolidated revenue of NT\$10.63 billion, up 3% both M-o-M and Y-o-Y, mainly attributable to stable end-demand in the smart-phone, tablet PC and server markets. Cumulative sales from January through August totaled NT\$79.57 billion.

Thanks to solid orders received by Lite-On's core business units, the Opto-Electronics business group posted a 22% increase in revenue over last year. Included in that, the Camera Module business unit set a monthly record high and remarkable annual growth of 74% Y-o-Y, due to ongoing market share gains and increased shipments of tablet PCs and smart-phones globally. The Mechanical Competence group also reported strong growth of 8% M-o-M, of which the HIS (Human Input Solutions – PC keyboards and peripherals) business unit continued with its consecutive monthly gains in market share, resulting in its greatest monthly revenue in 2011.
