

Lite-On Technology reports March sales of NT\$ 10.54 billion, up 21% M-o-M

2012/04/05

Lite-On Technology (TW 2301) today reported March consolidated revenue of NT\$10.54 billion, up 21% M-o-M. The impressive sales growth was attributable to Lite-On's ongoing market share expansion and smooth delivery, coupled with rising end-demand. Q1 consolidated revenue reached NT\$27.41billion.

In March, all of Lite-On's Strategic Business Groups (SBGs) showed steady growth, with the Power Supply, Optoelectronics, Mechanical Competence and Connected Devices & System Solutions SBGs posting growths of 18%, 32%, 14% and 15% M-o-M respectively. Thanks to ongoing market-share gains in PCs and smart-phones globally, revenue of both the Camera Module business unit in the Opto-Electronics business group, and the HIS (Human Input Solutions - PC keyboards and peripherals) business unit in the Mechanical Competence business group, hit new monthly sales record highs in March.
