

Lite-On Technology reports January sales of NT\$10.39 billion, up 28% Y-o-Y

2013/2/05

Lite-On Technology (TW 2301) today reported January consolidated revenue of NT\$10.39 billion, up 28% Y-o-Y. All of Lite-On's Strategic Business Groups (SBG) showed steady growth, which is mainly attributable to smooth order intakes in Strategic Business Groups, coupled with stable global market demand.

In January, thanks to steady increases in the demand of server and networking devices for cloud computing applications and mobile devices, Power Supply revenue posted a growth of 16% Y-o-Y, mainly driven by shipment increase from high-end power management systems, Camera Module revenue grew by over 80% Y-o-Y supported by its production capacity expansion and smooth delivery of high-end products, as well as ongoing gains in the global market-share of smart-phones and Tablet PCs. Meanwhile, the HIS (Human Input Solutions-PC keyboards and peripherals) business unit also enjoyed continuous growth compared to the same month last year, resulting from increased shipments of keyboards for tablet PCs and ongoing global market share gains in desktop and notebook PCs.

Additionally, thanks to substantial demand from branded customers and delivery growth, revenue from LED lighting components increased over 200% Y-o-Y, and total revenue from the LED business unit increased approximately 30% Y-o-Y. As a result, the Optoelectronics SBG posted a monthly revenue growth of over 60% Y-o-Y.
