

Lite-On Technology Reports Consolidated April Sales of NT\$16.25 Billion

2013/5/10

Lite-On Technology (TW 2301) today reported April consolidated revenue of NT\$16.25 billion and parent company consolidated sales of NT\$9.93 billion, both maintaining the same level as last month. All of Lite-On's Strategic Business Groups (SBG) showed stable order intakes, and cumulative consolidated revenue and parent company consolidated revenue from January to April were NT\$62.68 billion and NT\$37.88 billion respectively.

Thanks to steady increases in the demand of cloud computing applications and mobile devices, coupled with the smooth delivery of products such as High-end Power Management Systems, Camera Modules, and Keyboards for Tablet PCs, the relevant business units posted consequential revenue growth in April.

LED and Lighting products presented a remarkable revenue growth of 25% Y-o-Y; of which, thanks to substantial demand from branded customers and delivery growth, revenue from LED lighting components increased over 100% Y-o-Y, driving overall LED components' revenue growth of approximately 20% Y-o-Y in April. LED Outdoor Lighting business, including LED traffic signal and street lighting products, also posted a revenue growth of approximately 80% Y-o-Y, driven by increased demands for energy saving solutions in North America, coupled with smooth delivery for tenders won in Taiwan. Meanwhile, Vehicle LED Lighting products also enjoyed tremendous growth compared to last year resulting from end market demand growth as well as ongoing market share gains in worldwide brand customers.
