

Lite-On Tech reports October consolidated sales of NT\$ 10.2 Billion, second record excluded sales of DDBU

2008/11/07

Lite-On Tech. (TW 2301) today reported its October consolidated revenue of NT\$10.2 billion, up 2% YoY, setting the second record high, excluding DDBU (Digital Display Business Unit) sales. The year-to-date revenue totaled NT\$ 127 billion.

Thanks to the solid development in our core businesses, October sales of Imaging hit another record high with a growth of 10% MoM and 64% YoY. The year-to-date sales of Imaging have increased by 26% YoY and showed the strongest growth among all business units, while Power Supply and Optoelectronics achieved a 21% and 7% yearly growth respectively.

In addition, the sales of Network Access and Human Input Solution both reached record high, with a year-to-date sales growth of 35% and 10% YoY respectively.
