

LITEON Technology Reports Consolidated April Sales of NT\$12 Billion

2023/5/8

LITEON Technology (2301-tw) today reported its April consolidated revenue of NT\$ 12 billion, down 5% M-o-M and down 8% Y-o-Y, excluding sales of the transferred image business. Thanks to continuous yearly growth from high-value core businesses such as power management in cloud computing, automotive electronics, and 5G network equipment, cumulative sales for January to April totaled NT\$46.2 billion.

Opto-electronics Business contributed a 21% share of total sales, of which, stable demand seen in LITEON's worldwide No.1 shipment photocouplers used in industrial automation and green energy advanced applications; electronic vehicle chargers, LED vehicle lighting and ADAS camera modules posted a delivery growth.

Cloud & AIoT business contributed a 37% share of sales. The shipment of high-end datacenter server and networking power management systems for cloud computing, as well as 5G network equipment posted a yearly growth.

Information Technology & Consumer Electronics Business accounted for 42% of sales, of which, high-end power adapters shipments posted smooth delivery attributed to ongoing optimization of product mix.
